INTRODUCTION

This report describes South Carolina's activities and accomplishments during Program Year (PY) 2025 (July 2025 to June 2026) (PY25) as required by the Training and Employment Guidance Letter (TEGL) No. 04-25. This report outlines the progress for each of the core and encouraged products and services.

The Workforce Information Grant (WIG) is a critical funding source as it supports many labor market information products and services to include populating Workforce Information Database (WIDb) core tables; maintaining the S.C. Department of Employment and Workforce (DEW) Labor Market Information Division (LMI) website (***lmi.sc.gov***); providing real-time data analysis, collection, and delivery of fundamental analyses of the economy and workforce; and ongoing communication with a wide range of customers.

South Carolina completed all core deliverables in Program Year 2025 as outlined in TEGL No. 04-25. In addition to maintaining the WIDb and website, producing employment projections, and conducting LMI training, LMI also responded promptly to customer inquiries.

To meet customer needs, LMI was fully engaged in identifying labor market information requirements by providing real-time, customized products, such as regional economic overview reports statewide and for the workforce development area (WDA) and Workforce Innovation and Opportunity Act (WIOA) regions. We have used findings from customer feedback and direct contact through phone calls and emails to develop quality products and services.

South Carolina passed major workforce legislation in May 2023, "The Statewide Education and Workforce Development Act, Act No. 67 of 2023 (S. 688)," which aims to eliminate duplication, improve efficiencies, and achieve a more coordinated effort in our workforce and education pipeline. The legislation is designed to maximize the opportunity for citizens by meeting the immediate and future needs of specialized industry workforce demands of South Carolina businesses. The law extends membership in the Coordinating Council of Workforce Development (CCWD), which are agencies involved in workforce development, for that purpose. The LMI Division produces key deliverables for the new law, and WIG staff collaborates with other LMI staff assigned to support CCWD initiatives as needed, for example, development of labor supply gap analysis. The Statewide Education and Workforce Development Act's initiatives and subsequent collaborations have raised the profile of labor market information in the state as additional analytical capacity is now housed at DEW.

DELIVERABLES AND REQUIREMENTS

Workforce Information Database (WIDb)

- The agency maintained a workforce information database with the required 3.0 version, and all core data tables were kept current with the latest data as it became available.
- Additionally, the Data Axle Employer Database was available at ***CareerOneStop*** to assist in improving employer engagement, and the 2026 1st Edition was uploaded to the agency SQL server in January 2026. This information was used to answer several customer queries requiring company-level data.
- The WIG database administrator maintained the required core data tables to support customer needs.
- Occupational licensing data for 2026 was updated and submitted to the Analyst Resource Center (ARC) by June 30, 2026.
- The WIDb supports a wide variety of workforce system data needs for planning and analysis, whether being used directly by WIG analysts or by customers via the LMI website.

Labor Market Information Division Website

- To better serve customers, the LMI division adopted the LMInformer platform run by the State of Montana in March 2025 and established a new website at lmi.sc.gov. The goal was to improve the customer interface and access to LMI data and provide a footprint for expanded publications.
- To keep the site as current as possible, we used the Bureau of Labor Statistics (BLS) calendar of updates. Products and services were updated as they became available. (***lmi.sc.gov/Other-Resources/Release-Calendar***).
- The website allows easy digital access to the following LMI products and services (several of which are discussed in more detail in the Encouraged Reports and Projects section):
    - South Carolina Data Trends Magazine, an analysis of current labor market data
    - LMI Insights, a short-form journal
    - The five LMI dashboards, including three new entries in PY25
    - The LMI Data Request Application
    - BLS and employment projections data
    - An archive of the LMI division's publications and presentations
- The Division provided Regional Economic Overview Reports for the state, WDAs, and WIOA regions from our third-party data vendor, JobsEQ: ***lmi.sc.gov/Publications/Regional-Profiles***.
- Past presentations of labor market information by WIG staff to various audiences are included on the website: ***lmi.sc.gov/About-Us/Slide-Decks***.

Industry and Occupation Employment Projections

- Long-term, state-level employment projections for the 2024-2034 period were released by the July 7, 2026 deadline, on Projections Central, a website of the Projections Managing Partnership (PMP) (***projectionscentral.org/longterm***), and DEW's LMI website. ***lmi.sc.gov/Data-Hub/Projections***.
- The PMP System's methodology, software, tools, and guidelines were used to form the projections.
- These projections are used by workforce development area staff and educational partners for economic and workforce planning as well as training and curriculum development. These were a direct input into DEW's 2026 Edition of the Labor Supply Gap Analysis (SGA) Report.

LMI Training for Service Delivery

- Because training was one of the agency's priorities, LMI staff had previously developed training on several levels for multiple audiences within the agency. A mandatory Virtual Orientation was created by the Human Resources Division which included a section about LMI. LMI staff wrote the script and served as primary reviewers for that section.
- LMI training was developed for data users within the agency based on their position and use of LMI data. Six levels of training were developed, written, and put into script and PowerPoint form by LMI staff to be used on the agency's Learning Management System (LMS). The course topics ranged from a broad overview of LMI (LMI Lite) to specific data and resources for workforce or business consultants.
- With help from the Human Resources Division, agency staff were requested via email to take the level of training pertinent to their current position in the agency. For Program Year 2025, 123 virtual course offerings had been taken across all levels of LMI training during the program year, with most of those being the introductory LMI Lite training. The attendees are identified in the **LMI Training Table** attached to the end of this report.

- LMI staff have continued to support the workforce development boards and partners, providing information as requested.
- WIG regional analysts trained regional Statewide Education and Workforce Development Act staff in utilizing the new LMI website to obtain needed information during monthly collaboration meetings to better support their education and business customers.
- WIG Team instructed agency WIOA Employment Services staff on obtaining information through the LMI website during statewide gathering of staff in April 2026.

ENCOURAGED REPORTS AND PROJECTS

Monthly or More Frequent Reports

LAUS AND CES TABLEAU DASHBOARDS

- Tableau dashboards of Local Area Unemployment Statistics (LAUS) and Current Employment Survey (CES) data

DATA TRENDS

- South Carolina Data Trends, a monthly publication with analysis of key workforce statistics

LMI INSIGHTS

- An online journal, known as LMI Insights, provides short informational snippets on a variety of LMI topics and is produced roughly twice a month.

HYPERLINKS:

- Data Trends:
  lmi.sc.gov/SC-Data-Trends-Magazine/SC-Data-Trends-Magazine
- LAUS and CES Tableau dashboards:
  lmi.sc.gov/Data-Hub/BLS-Data
- LMI Insights:
  dew.sc.gov/LMIInsights

Quarterly Products

- S.C., WDA, and WIOA regional Economic Overview reports contain a variety of economic and workforce data for each area.
- Tableau dashboard of Quarterly Census of Employment and Wages data.

HYPERLINKS:

- Regional Economic Overview Reports:
  lmi.sc.gov/Publications/Regional-Profiles
- Quarterly Census of Employment and Wages Tableau dashboard:
  lmi.sc.gov/Data-Hub/BLS-Data/QCEW

Annual Products

Two primary LMI data systems update information on an annual basis, and an allied program updates its list of priority occupations annually as well.

- *Priority Occupations* are identified based on current demand, projected growth, viability, and retention, using WID data elements produced or utilized by the LMI Division. These jobs are in high demand and forecasted to become essential, thriving careers with untapped potential.
- Tableau dashboards that show the occupational employment and wage statistics as well as long-term employment projections.
- The Labor Supply Gap Analysis Report utilizes annual job openings metric from Employment Projections analysis.

- Priority Occupations:
  findyourfuture.sc.gov/priority-occupation-dashboard-official
- Labor Supply Gap Analysis Report:
  lmi.sc.gov/_docs/Publications/CCWDPublications/SGA/Supply-Gap-Analysis-2026-Edition.pdf

OTHER ALLOWABLE ACTIVITIES

The South Carolina LMI division conducted numerous analyses or related activities for a variety of customers over the program year. A description of several examples is given below:

- As part of DEW's "The Works" podcast, hosted by our Executuve Director William Floyd, that spotlights the strategic efforts of the Coordinating Council for Workforce Development (CCWD), workforce leaders, and workforce development activities in South Carolina, the "LMI Minute" highlights pertinent labor market information relevant to each episode.
- Provided labor market data and on-site consultation for the South Coast WIOA region Sector Strategies initiative.
- Provided presentations of labor market information to several of the state's Councils of Government.
- Participated in the committee meetings for Southern Carolina Alliance (SCA) and produced an employer survey concerning workforce barriers to be conducted in PY26.
- Provided labor market information for county grant applications.
- Provided workforce information to *readySC*, the state's workforce training system administered by the S.C. Technical College System.

PARTNERSHIPS

- LMI staff participated in several meetings of the South Carolina Manufacturing Extension Partnership as a member of the CCWD to provide support for their mission.
- The LMI division provided informational support to the educational community with discussion of LMI in their Comprehensive Local Needs Assessment (CLNA) efforts.
- LMI staff regularly participate in monthly WIOA Regional Collaboration Meetings, which include the Rural Initiatives representatives and Regional Workforce Advisors (RWA), who help connect the educational and business communities.
- LMI staff authored the *Solar Energy Supply Gap Analysis Report* in collaboration with the Workforce and Economic Development Division of DEW with their *Solar Energy Workforce Assessment Report* for the S.C. Office of Resilience in the *Solar for All* initiative in PY24. The WIG manager sits on the *Solar for All* Advisory Committee, where several meetings were held in its wind down activities in PY25.
- LMI staff provided nursing employment information to the South Carolina Area Health Education Consortium (AHEC) in ongoing data support.
- The WIG manager and one regional analyst sit on planning committees of the Southern Carolina Alliance that study workforce issues.
- LMI staff annually provides the State Department of Corrections Division of Industries with LMI data for its Prison Industry Enhancement (PIE) program.
- The LMI division is participating in the Postsecondary Employment Outcomes (PSEO) Coalition, engaging with representatives from the Census Bureau, other state agencies, and colleges and universities to network and share ideas on measuring and understanding educational outcomes.
- The WIG team provided information and LMI expertise to numerous partners during the program year but did not have any specific leveraging activities.

CUSTOMER CONSULTATIONS

- The WIG team is currently authoring a labor supply gap analysis report for the South Carolina Forestry Commission.
- WIG staff had numerous customer consultations and data provisions this year to include the state's executive staff, state legislature, various state and local government agencies, economic developers, workforce development area staff, media, chambers of commerce, and the S.C. technical college system.
- DEW responded to numerous media inquiries where LMI data helped clarify issues raised in interviews.
- The LMI division responded to numerous data requests from workforce and business stakeholders this program year and also delivered multiple products and presentations, including:
    - **165 responses** to requests for LMI from workforce, education, government, or business stakeholders with 523 email data attachments
    - **15 presentations** of LMI information at workforce or business stakeholder meetings

- **105 meetings** of WIG staff with state or regional workforce professionals, economic development officials, or state agencies
- **914 new products** in the form of Trends articles, dashboard updates, or reports (many of which are periodic)
- **41 online journal entries** to the DEW website

- The following table highlights specific instances where the WIG team met an identified customer need:

CUSTOMER	IDENTIFIED NEED	SERVICE/PRODUCT PROVIDED
Southern Carolina Regional Development Alliance	Identify Barriers to Employment	WIG team participates in "Obstacles" Committee meetings, where barriers were identified and discussed. LMI team developed an Employer Survey instrument to help committee characterize childcare and transportation issues of employees. WIG team led discussion of survey during committee meeting.
Trident Workforce Development Area	Need labor market information and guidance to help update sector strategy plans.	WIG team provided area industry sector employment, occupational gaps, occupational wages among other LMI during kickoff meeting. Also provided LMI expertise in table discussions for participants as well as with consultant assisting Trident in the ongoing initiative.
Midlands Area Education Committee	Need labor market information for Comprehensive Local Needs Assessment (CLNA).	WIG team provided area job postings and labor supply gap information for the CLNA team and LMI expertise during committee meetings.
S.C. Forestry Commission	Need a Workforce Assessment of Forestry Sector	WIG team provided a report evaluating industry and occupational employment and wages to include a labor supply gap analysis and a discussion of workforce enhancement opportunities.
Piedmont Technical College "Lunch and Learn" Presentation	Need an understanding of DEW Employment programs and local labor market information.	As part of larger presentation, WIG team provided labor market statistics for Edgefield County including Local Area Unemployment Statistics, job posting summaries, and county commuting patterns.

A sampling of customers the LMI staff served during the program year include:

- Governor's Office
- General Assembly members
- Apprenticeship Carolina
- South Carolina Commission for the Blind
- S.C. Department of Corrections
- South Carolina Treasurer's Office
- S.C. Manufacturers and Commerce (formerly S.C. Chamber of Commerce)
- Partnership Grand Strand
- Berkeley-Charleston-Dorchester Council of Government
- Pee Dee Council of Government
- Upstate Workforce Development Area
- Southern Carolina Regional Development Alliance
- South Carolina Manufacturing Extension Partnership (SCMEP)
- South Carolina First Steps
- readySC
- Upper Savannah Workforce Development Area
- South Carolina Area Health Education Consortium (AHEC)
- Philadelphia Federal Reserve Bank
- Richmond Federal Reserve Bank

RECOMMENDATIONS

The LMI division has no recommendations for improving the use of WIG funding at this time.

LMI Training Table:

DATE	SUBJECT	ATTENDEE	PRESENTER
7/7/2025	Labor Market Information (LMI) Lite	Rose Cortes	Voiceover reading of WIG staff-produced script.
7/7/2025	Labor Market Information (LMI) Lite	Melonie Edge	Voiceover reading of WIG staff-produced script.
